

Template Instructions

1. Click on the “Design Layer” in the layers panel to make it the active layer.
2. Create design within the two rectangles. Design can extend beyond the edge of rectangle (format).
3. When design is complete, activate mask layer clicking the “eye” next to “Mask Layer” in the layers panel.
4. Save as an Illustrator file:
File>Save As>Lastname_Firstname_M#T#
5. Save as a JPEG file:
File>Save for Web>Lastname_Firstname_M#T#
6. Upload JPEG to classroom
7. Keep Illustrator file for revisions

Specific Instructions for M2T2:

Using circles only, create a design that uses overlap and diminishing size to illustrate the illusion of depth. Next, create two color variations of the design using the schemes from one color system created in M2T1. Place the colors used in the intervals below each design.

Analogous

Warm to Cool
